

# Canadian Association of Rallysport

## Application for use of drone at CARS sanctioned events

Use of drones at CARS sanctioned events is restricted to those that have pre-approval of this application from the event organizer, CARS Region Director/National Series Manager and private property owner/s if applicable. Priority use of airspace will be given to CARS media (TV Production).

### Approval Requirements;

1. Complete this application form and submit to event organizer along with the documentation listed at least two weeks prior to the event.
2. Attach a copy of your insurance certificate showing liability coverage of not less than five million dollars. The Canadian Association of Rallysport and the Event are to be named as additional insured on the certificate.
3. Attach a copy of your Transport Canada operator license.
4. Attach a copy of your Special Flight Operations Certificate.
5. The drone must be operated in accordance with Transport Canada guidelines, including those for proximity to people, public events, etc.
6. Attach a written flight plan and site survey showing stage and event locations and proposed flight path.
7. Attach a copy of Nav Canada airspace approval document.
8. If the drone is to be flown over private property, the property owners name, address and permission signature is required on this permit application.
9. The drone must not be flown directly over service parks, ceremonial starts, spectators or podium ceremonies. (even if the drone is on the approved fly-over list)
10. The drone pilot must remain within visual line of sight of the drone while in flight or.
11. The drone must not be flown over competition road surfaces in such a way that it could fall onto the road surface ahead of vehicles.

Does the flight path encroach on private property:    YES    NO <i>(if multiple properties attach extra pages)</i>
