Subject: National Series Manager Position

Issue Date: September 30, 2022

To All CARS member clubs and license holders.

As you are likely aware, our long-standing National Series Manager, Terry Epp, is retiring effective at the end of this rally season. CARS would like to hear expressions of interest from rally stakeholders that could be interested in filling the great void that will be left by Terry's retirement.

The core aspects of the position can be viewed on the CARS website at carsrally.ca/documents/cars-roles/

It is anticipated that the responsibilities of the position will be adjusted to suit current circumstances as well as to recognize the skillset of the new manager.

Managing change and a commitment to development of the sport as well as emphasizing strong relationships will define the position responsibilities more than the written role description.

To learn more about this opportunity or to express your interest in filling the position, please contact any of the following:
